CHAIRMAN'S *Message*

NOOR SHEIKH
CHAIRMAN, IMANET

“

And they give
food in spite of love
for it to the needy,
the orphan,
and the captive.

Qur'an 76:8

”

In the name of Allah, the Most Gracious, the Most Merciful.

Reflecting upon the successful execution of the Isiolo Iftar Initiative 2026, my heart is filled with profound gratitude for our donor community, field networks, and all well-wishers whose support made this initiative possible.

Ramadhan is a sacred period characterized by compassion, generosity, sacrifice, and solidarity with those facing hardship. It reminds us of our collective responsibility to support vulnerable members of society and ensure that no family goes hungry while observing this blessed month.

The year 2026 presented significant challenges for many households across Isiolo County. Recurring drought, rising food prices, economic hardship, unemployment, and declining household incomes left many families struggling to meet their basic food needs. Vulnerable groups including widows, orphans, elderly persons, persons living with disabilities, and low-income households were particularly affected.

Recognizing this growing need, IMANET mobilized resources and launched the Isiolo Iftar Initiative 2026 with the aim of providing food assistance to vulnerable households across Wabera, Bula Pesa, Burat, and Ngaremara wards, as well as underserved communities in Mutunyi and Shaambani villages.

One of the major highlights of this year's initiative was the successful organization of the Isiolo Iftar Walk 2026 held on 14th February 2026. The event attracted more than 500 participants from various sectors of society and served as a platform for fundraising, awareness creation, and community engagement. The walk demonstrated the strength of community solidarity and the willingness of individuals and institutions to contribute towards addressing food insecurity.

The success of this initiative would not have been possible without the unwavering support of our donors, volunteers, and well-wishers. Their contributions enabled us to reach thousands of vulnerable beneficiaries.

I would also like to recognize the dedication of IMANET volunteers who tirelessly conducted beneficiary identification, household verification, food packaging, registration, and distribution activities. Their commitment and sacrifice exemplify the spirit of service that drives our organization.

Through this initiative, over 2,000 vulnerable households and numerous institutional beneficiaries received food assistance. Beyond the food support provided, the programme strengthened social cohesion, restored dignity to vulnerable families, and reinforced the values of compassion and collective responsibility that define our community.

As we reflect on the achievements of the Isiolo Iftar Initiative 2026, we are reminded that sustainable change is only possible when communities unite around a common purpose. The success of this programme demonstrates what can be achieved through collaboration, voluntarism, and shared commitment to humanitarian service.

On behalf of the Board, Management, and Volunteers of Isiolo Muslim Aid Network, I extend my sincere appreciation to everyone who contributed to this noble cause. Your generosity brought hope, dignity, and relief to thousands of families during Ramadan.

May Allah (SWT) abundantly reward your kindness, generosity, and commitment to serving humanity.

Executive Summary & Programme Snapshot

The **Isiolo Iftar Initiative 2026 (1447H)** was deployed by the Isiolo Muslim Aid Network (IMANET) as a timely, localized food security intervention during the holy month of Ramadan. Targeting four central wards heavily impacted by chronic dry spells and soaring food inflation, the project systematically mobilized local, national, and corporate resources to deliver high-quality nourishment directly to households categorized as highly vulnerable.

ABOUT US

Isiolo Muslim Aid Network (IMANET) is a community-based, non-profit, and faith-inspired organization founded to promote human dignity, advance Dawah, alleviate suffering, and improve the quality of life of vulnerable populations in Isiolo County and beyond. Guided by Islamic values of compassion, justice, and service to humanity, IMANET integrates Dawah as core pillar in all its work—nurturing spiritual growth, strengthening moral values, and fostering peace and unity within the Muslim community while addressing pressing social, health, and development challenges. We serve as a unifying platform for the Muslim community while working inclusively with all people regardless of religion, gender, or ethnicity, ensuring that no one is left behind. Over the years, IMANET has built a strong reputation for transparency, accountability, volunteerism, and community engagement. The organization works closely with local communities, religious leaders, government institutions, community-based organizations, and development partners to implement impactful programmes. The Isiolo Iftar Initiative remains one of IMANET's most recognized annual programmes due to its direct impact on vulnerable households.

Six Core Strategic Pillars

1. Dawah & Moral Empowerment

Fostering spiritual growth, implementing values-driven education, and supporting revert communities with essential social integration structures.

2. Education & Youth Empowerment

Offering academic scholarships, supporting vocational institutions, and sponsoring mentorship networks for vulnerable youth.

3. Humanitarian Relief

Deploying rapid emergency interventions, relief distribution infrastructure, and seasonal safety nets such as the annual Ramadan food pipeline.

4. Udhhiya Programme

Managing livestock procurement, sanitary processing, and cold-chain logistics to deliver high-quality meat distributions during Eid-ul-Adha.

5. Health & Peacebuilding

Advocating for inter-ethnic cohesion, sponsoring primary healthcare camps, and bolstering public hospital capacity.

6. Waqf Development

Establishing community-owned economic assets to yield sustainable income streams earmarked for perpetual social charity.

INTRODUCTION

The Isiolo Iftar Initiative is an annual humanitarian programme implemented by Isiolo Muslim Aid Network (IMANET) to address food insecurity among vulnerable households during Ramadan.

The programme seeks to ensure that vulnerable families have access to essential food commodities that enable them to observe fasting with dignity while reducing the burden of hunger and food shortages.

The initiative is guided by Islamic principles of charity, compassion, social justice, and collective responsibility. It also contributes to broader humanitarian objectives of improving food security, strengthening community resilience, and promoting social cohesion.

The 2026 initiative was designed to respond to the growing demand for food assistance within Isiolo County. Community assessments conducted before Ramadan revealed that many households were struggling to meet their basic food requirements. The assessment highlighted an urgent need for targeted support, particularly among widows, orphans, elderly persons, persons living with disabilities, casual labourers, and low-income families.

To address this challenge, IMANET developed a comprehensive intervention that combined fundraising, beneficiary identification, food procurement, packaging, distribution, monitoring, and post-distribution evaluation.

Situation Analysis

Socio-Economic Pressures in Northern Kenya

The target segments in Isiolo County faced extreme economic headwinds in early 2026, making seasonal humanitarian interventions absolutely vital for survival. The convergence of persistent environmental stress and shifting macroeconomic realities created severe food security challenges for low-income households.

Climate Shocks & Chronic Drought

Recurrent dry spells depleted household livestock holdings and degraded small-scale agricultural returns across peripheral wards like Ngaremara and Burat, cutting off basic pastoral revenue lines.

High Youth Unemployment

Lack of formal employment opportunities left a large percentage of youth dependent on erratic, low-paying day labor, which dried up further during the dry season.

Surging Commodity Prices

A sharp rise in core grain, flour, and oil prices meant that low-wage earners spent over 75% of their total daily income on basic foodstuffs, leaving no room for unexpected expenses.

Diminished Safety Nets

Traditional community sharing mechanisms were strained by widespread poverty, requiring institutional organizations like IMANET to establish structured support programs.

"Without institutional intervention, over 40% of the households reviewed across Wabera and Bula Pesa would have faced severe nutritional deficits during their daily fasts."

Project Goal & Strategic Objectives

Overarching Programmatic Goal

To improve immediate food access and preserve dignity for vulnerable, food-insecure households across targeted wards in Isiolo County throughout the Holy Month of Ramadan 2026, while building robust community solidarity networks.

Six Core Operational Objectives

1. Secured Food Delivery

Procure and distribute balanced, shelf-stable food kits valued at KES 3,500 to over 2,300 verified families prior to or during the early phases of the fast.

2. Transparent Selection

Implement a reliable, door-to-door vulnerability assessment system using community-validated indicators to eliminate duplicated efforts.

3. Direct Public Engagement

Mobilize over 500 local residents and institutions through the 2026 Iftar Walk to raise awareness and secure domestic funds.

4. Strong Institutional Links

Provide targeted food allocations to low-income workers, students, and inmates across 4 strategic health, penal, and academic facilities.

5. Support Revert Communities

Extend specialized distribution lines to marginalized rural communities, specifically targeting 500 families in Mutunyi and Shaambani.

6. Efficient Logistics Management

Maintain low overhead costs by deploying trained local volunteers to handle food packing, tracking, and distribution processes.

Target Beneficiary Profiling

The initiative prioritized individuals and households facing high vulnerability due to low income, social exclusion, or physical limitations. Rather than relying on open-ended distributions, IMANET channeled resources to seven clear target groups:

Target Group	Inclusion Criteria & Specific Focus Areas
Widows	Female-headed households with minor dependents and no stable source of income.
Orphans	Child-headed families or households caring for multiple orphaned relatives.
Elderly	Aged individuals (70+) lacking family support networks or social safety nets.
PWDs	Individuals with severe physical or mental disabilities that limit work opportunities.
Low-Income Families	Daily casual laborers, street vendors, and workers facing sudden job losses.
Unemployed Youth	Vulnerable young people lack steady employment options to support extended families.
Muslim Reverts	Isolated communities in remote locations, such as Mutunyi and Shaambani villages.

Beneficiary Identification & Verification

To ensure total transparency, IMANET worked closely with the **Isiolo Muslim Sisters Organization** and the **Salihat Daawah Group** to design a thorough, multi-stage vetting process. This door-to-door approach ensured that aid was directed to families with the highest need.

The Verification Workflow

Eliminating Selection Bias

By conducting door-to-door visits rather than relying on self-reported lists, our field teams observed living conditions firsthand. This process allowed us to cross-check household details against local economic markers, ensuring that our final recipient register was accurate and fully verified.

Vulnerability Classification System

Field data collected by our assessment teams was grouped using a priority indexing system. This allowed the distribution teams to manage resource allocation effectively based on the urgency of need.

● High Priority (Tier 1) - Urgent Intervention

Target Groups: Child-headed families, elderly individuals living alone, widows with no stable income, and persons with severe disabilities.

Action Taken: Guaranteed immediate allocation of full food kits during the initial distribution phase, with home delivery options for individuals facing mobility challenges.

● Moderate Priority (Tier 2) - Secondary Allocation

Target Groups: Large households dependent on irregular casual labor, and low-wage earners experiencing severe food gaps.

Action Taken: Registered in our main database and provided with collection cards for structured pickup during Phases 2 and 3.

● General Vulnerability (Tier 3) - Reserve Standby

Target Groups: Households facing seasonal economic strain but retaining baseline financial resilience.

Action Taken: Placed on the reserve ledger to receive surplus allocations after satisfying Tier 1 and Tier 2 requirements.

Resource Mobilization & Operational Timeline

The success of the initiative relied on a carefully planned workflow that connected community fundraising directly with our procurement and distribution networks. This approach ensured that food supplies reached distribution centers ahead of peak demand periods.

Operational Milestones Breakdown

By linking public awareness events directly with digital fundraising channels, the administrative team maintained real-time visibility over incoming donations, allowing them to adjust bulk food purchases to match total funding.

Isiolo Iftar Walk 2026: Community Mobilization

The **Isiolo Iftar Walk 2026** served as the main community-driven fundraising event for the initiative. Over 500 participants walked together through Isiolo town, demonstrating broad support for our local food security programs.

Key Outcomes Achieved:

- **Resource Mobilization:** Earned critical revenue via sales of branded t-shirts, caps, and direct pledges.
- **Awareness Creation:** Kept food insecurity challenges visible to local businesses and public bodies.
- **Volunteer Recruitment:** Registered over 50 new young volunteers to assist with packing and logistics.
- **Community Cohesion:** Brought diverse groups together to support a shared humanitarian cause.

The Tegla Loroupe Foundation Partnership

A key highlight of the walk was the participation of the Tegla Loroupe Peace Foundation. Their team directly contributed a major bulk consignment of essential food supplies, which provided immediate, full rations for **650 households**.

Food Procurement & Packaging Logistics

IMANET set up a centralized storage and packaging facility to handle bulk shipments safely while keeping overhead and logistics costs low. Our volunteer teams managed inventory intake, quality checks, and standardized package assembly lines.

Standardized Basket Contents:

Every family kit contained essential, shelf-stable items designed to provide balanced nutrition, including high-grade maize flour, long-grain rice, sugar, fortified cooking oil, premium dates, tea leaves, and nutrient-rich pulses.

Quality & Volume Control

Our warehouse team reviewed all items to confirm packaging integrity and shelf-life metrics. Standardizing the kits ensured that resources were distributed equally across all registered households.

Distribution Coverage Dashboard

Our distribution operations were managed across targeted geographic sectors to prevent congestion and ensure smooth coordination.

Operational Area	Distribution Channel & Center	Households Reached
Wabera Ward	Centralized Pickup (Ayo Village Hub)	325 Families
Bula Pesa Ward	Centralized Pickup (Ayo Village Hub)	965 Families
Burat Ward	Centralized Pickup & Mobile Units	640 Families
Ngaremara Ward	Mobile Distribution Points	76 Families
Mutunyi Village	Direct Rural Village Delivery	60 Families
Shaambani Village	Direct Rural Village Delivery	40 Families
TOTAL HOUSEHOLDS	Core Household Distribution Channels	2,106 Families

"Phases 1 through 3 were centralized at the Ayo Village Compound, where 1,820 pre-registered families collected their food kits safely and efficiently using our structured card verification system."

Institutional Support Pipeline (Phase 4)

Phase 4 of our distribution focused on supporting essential low-wage workers, students, and institutional populations who are often missed by traditional neighborhood-level food security programs.

Isiolo General Hospital

We provided specialized food packages to the hospital's security team and casual maintenance staff, supporting low-income workers performing essential shifts.

Isiolo Main Prison

Bulk food parcels were delivered directly to facility management to support feeding programs for inmates during the fasting period.

KMTC Isiolo Campus

Rations were extended to vulnerable, self-sponsored medical training students facing financial strain during their exam terms.

Isiolo Boys High School

Supplied targeted nutritional packages for vulnerable student segments and low-wage support staff working at the school.

FINANCIAL ACCOUNTABILITY AND RESOURCE UTILIZATION

ISIOLO IFTAR INITIATIVE 2026

Transparency, accountability, and responsible stewardship of resources were fundamental principles guiding the implementation of the Isiolo Iftar Initiative 2026. All financial and in-kind contributions received from donors, partners, community members, and well-wishers were properly documented, monitored, and utilized in accordance with approved project procedures and financial management standards.

RESOURCE UTILIZATION SUMMARY

RESOURCE AREA	PURPOSE / DESCRIPTION	UTILIZATION FOCUS
 Procurement	Purchasing food commodities for beneficiary households.	Largest allocation of resources.
 Transportation and Logistics	Transporting food commodities from suppliers to packaging centres and distribution sites.	Ensured timely and safe delivery.
 Packaging Materials	Procurement of packaging materials for safe and organized food distribution.	Supported efficient distribution.
 Event Organization	Supporting the planning and implementation of the Isiolo Iftar Walk 2026.	Funded event logistics and activities.
 Communication and Mobilization	Awareness creation, beneficiary communication, and volunteer coordination.	Enhanced outreach and engagement.
 Monitoring and Evaluation	Project supervision, monitoring activities, reporting, and post-distribution assessments.	Ensured accountability and impact tracking.

The resources were strategically allocated to ensure efficient implementation, maximum benefit to vulnerable households, and adherence to best practices in financial management. Continuous monitoring and documentation were conducted throughout the project cycle to uphold transparency and demonstrate prudent use of all contributions.

Following the financial review, it was established that each beneficiary household received assistance valued at approximately:

KES 3,500
PER HOUSEHOLD

This represented a significant contribution towards meeting household food needs during Ramadan.

Budget Allocation Breakdown

RESULTS & KEY ACHIEVEMENTS DASHBOARD

ISIOLO IFTAR INITIATIVE 2026

“

The 2026 initiative met its primary operational goals, strengthening our local relief networks and improving food security for vulnerable groups during Ramadan. Through strategic partnerships, community participation, and effective resource management, we delivered meaningful support to thousands of families across Isiolo County.

KEY ACHIEVEMENTS AT A GLANCE

01

2,320+ Households Reached

Successfully delivered full food kits to registered vulnerable families across our target wards and peripheral villages, ensuring no eligible household was left behind.

02

Enhanced Volunteer Engagement

Deployed over 80 field and logistics volunteers who played a critical role in planning, distribution, and monitoring activities, reducing administrative overhead and building local capacity.

03

500+ Active Walkers Mobilized

Engaged the community through our main public walk event, raising key funds and awareness while strengthening our local volunteer network and community solidarity.

04

Strategic Partnerships Built

Worked effectively alongside organizations like the Tegla Loroupe Foundation and other partners to leverage resources and scale our collective impact for greater community benefit.

05

4 Core Institutions Assisted

Expanded our outreach to provide food supplies to low-wage workers, medical students, and inmates, ensuring inclusive support to more vulnerable groups during Ramadan.

06

Improved Food Security Outcomes

Reduced seasonal financial strain for vulnerable families, enabling them to meet their basic food needs and observe Ramadan with dignity and peace of mind.

OVERALL IMPACT

The Isiolo Iftar Initiative 2026 not only provided immediate relief through food assistance but also reinforced community resilience, collaboration, and a spirit of giving. The results achieved reflect our commitment to transparency, compassion, and sustainable impact.

OUR COMMITMENT

We remain committed to continuous improvement, accountability, and delivering meaningful change to the communities we serve.

TOGETHER, WE SERVE.
TOGETHER, WE TRANSFORM LIVES.

Impact Assessment & Core Programmatic Pillars

Our post-distribution review evaluated project outcomes across four key areas, measuring immediate relief effectiveness alongside broader community benefits:

Pillar 1: Improved Food Security

Our standard food kits met immediate nutritional needs for vulnerable households, helping to reduce seasonal food gaps and stabilize household nutrition during Ramadan.

Pillar 3: Enhanced Individual Dignity

Using a pre-issued card collection system eliminated long queues and disorganized crowds, providing a respectful, orderly experience for all recipients.

Pillar 2: Strengthened Community Solidarity

The initiative brought together local vendors, youth volunteers, and diverse civil groups, fostering greater community cohesion and shared responsibility.

Pillar 4: Increased Public Awareness

The public walk and our digital campaigns focused positive community attention on food insecurity challenges, helping to grow our donor base for future programs.

Beneficiary Composition Statistics

The charts below outline the demographic breakdown of registered beneficiaries across our target sectors, as recorded in our verified field registry:

Registered Demographics Distribution

This verified data demonstrates our programmatic focus on high-priority groups. Widows, orphans, and elderly individuals made up 65% of the total recipient registry, ensuring resources reached those with the most limited livelihood alternatives.

CHALLENGES ENCOUNTERED

Reviewing our field performance helps us strengthen operational strategies and build greater programmatic resilience for future seasonal campaigns.

High Demand for Assistance

The number of households requiring support exceeded available resources. Many deserving families could not be fully supported due to resource limitations.

Rising Food Prices

The increasing cost of food commodities affected procurement and reduced purchasing power.

Transportation Costs

Delivering food to remote villages required substantial logistical resources.

Limited Storage Space

Managing large quantities of food commodities presented storage and inventory management challenges.

LESSONS LEARNED

SEVERAL IMPORTANT LESSONS EMERGED FROM THE IMPLEMENTATION OF THE ISIOLO IFTAR INITIATIVE 2026.

Strategic Lessons Learned

- **Early Planning:** Beginning local assessments earlier gives our procurement team more time to secure stable wholesale pricing.
- **Data Vetting:** Door-to-door verification remains our most effective tool for ensuring accurate, need-based resource distribution.
- **Cohesive Partnerships:** Working alongside established foundations like the Tegla Loroupe Foundation allowed us to scale our outreach efficiently.

Recommendations & Strategic 2027 Roadmap

To scale our programmatic resilience and expand coverage, the IMANET executive secretariat has formulated five key strategic goals for the upcoming project cycle:

1. Expand Local Fundraising Architecture

Build on the success of the 2026 Iftar Walk by introducing corporate sponsorship tiers and expanding merchandise distribution channels across neighboring regions.

2. Implement Digital Beneficiary Registration

Transition from manual collection cards to an encrypted barcode registry to streamline warehouse tracking and reduce card collection waiting times.

3. Establish Emergency Food Reserves

Create a forward-purchasing reserve fund three months ahead of Ramadan to manage market price swings and ensure steady supply access.

4. Extend Last-Mile Logistics Infrastructure

Form dedicated partnerships with all-terrain fleet operators to ensure safer, more efficient deliveries to remote communities like Mutunyi and Shaambani.

Institutional Acknowledgements

The successful delivery of the **Isiolo Iftar Initiative 2026** stands as a clear example of what can be accomplished through shared purpose and collaborative effort. We express our sincere appreciation to the groups and individuals who contributed to this year's program:

"We express our deep gratitude to our donor community, local business owners, and corporate partners who contributed financial resources and in-kind logistics support. We value the dedication of our field partners, the Isiolo Muslim Sisters Organization and the Salihat Daawah Group, whose door-to-door assessment work helped ensure resources reached those in need. Finally, we thank our volunteer teams for their vital support across our packaging and distribution centers."

Special gratitude goes to:
